

# ARDC – The Australian Research Data Commons

**ARDC supports research across all disciplines:** to enable world leading research, facilitate accelerated innovation, and enhance researchers' ability to translate outputs into societal benefit

# ARDC – Five Themes

## Coordination and Coherence

Facilitating an “Australian research data commons”

## People and Policy

Transforming culture and community

## Data and Services

Maximising the value of Australia’s data assets

## Software and Platforms

Enabling research insights & supporting collaboration

## Storage and Compute

Providing foundation infrastructure
