# The theme

## ***“Where the EOSC makers & shakers meet”***

- To provide answers to the most frequently asked questions about EOSC:
  - What is EOSC going to give me that I don't have today?
  - How are the main issues and opportunities in the EOSC Strategic Implementation Plan being addressed?
  - Are there still gaps in the EOSC landscape to fill in?
  - Is EOSC really contributing to the grand societal challenges addressed by science?
  - Are the links between data and HPC initiatives becoming stronger and stronger?
  - What are the business models and governance regulating EOSC?
  - Who will benefit from EOSC? Is it just for researchers?
  - Do enterprise players see a role for themselves in EOSC and how ?
  - What is the role of national and thematic research infrastructures in the EOSC arena?
  - Is *FAIR* just a buzzword?

These are only a few of the provocative questions that will be addressed during the EOSC Symposium event.

## ● Breakout sessions

- FAIR Practices
- Legal status of EOSC
- HPC & EOSC
- Impact of Requirements of FAIR on Technical Architecture
- Service Onboarding
- Business Models for EOSC
- PID Policies
- FAIR Metrics
- EOSC Skills & Training

## ● Breakout Sessions

- FAIR Service Certification
- EOSC Key Exploitable Results
- Alignment of Standards / Regulations for EOSC
- AAI
- Open Science Policies
- Energy and Environment
- Health and Food
- Society and Culture
- Physics and Engineering

# Call for posters

**Theme: The top 3 exploitable results that can contribute to the EOSC establishment**

- Indicating:
  - which EOSC EB Working Group you can contribute to
  - which community the result is relevant to
  - when the results will be fully exploitable
  - if the result is a service or resource for EOSC, what are the policies for access

research data sharing without barriers  
[rd-alliance.org](http://rd-alliance.org)

# More than 60 sessions of interest

- Plenary Pathways [www.rd-alliance.org/rda-plenary-14-pathways](http://www.rd-alliance.org/rda-plenary-14-pathways)
- Breakout sessions by theme:
  - The FAIR Agenda
  - Disciplinary Approaches
  - Underpinning Infrastructure
  - Developing Nation Perspective
  - Data Management Issues
  - Content Issues
  - Skills/Human Issues

# EOSC Related RDA Sessions at P14

23<sup>rd</sup> October

- **FAIR Data Maturity Model: 2nd Face-to-face Meeting**

Relevance: The RDA Working Group "FAIR data maturity model" was established in January 2019 and aims to develop a common set of core assessment criteria for FAIRness, as an RDA Recommendation. This recommendation will be accompanied by a generic and expandable self-assessment model, for measuring the implementation level of the FAIR data principles.

14:30 – 16:00 | Dipoli, Kaleva | Remote Access Available

- **JOINT MEETING - FAIRSharing Registry: Connecting Data Policies, Standards & Databases WG; Data Policy Standardisation and Implementation IG: Journal Publisher Data Policies - Templates, Repository Criteria and Standards; RDA/WDS Certification of Digital Repositories IG**

Relevance: examples on how to improve repository selection, qualification and certification.

16:30 – 18:00 | Undergraduate Center - U142 U4 | Remote Access Available

# EOSC Related RDA Sessions at P14

24<sup>th</sup> October

**BoF** ● **Open Science Commons Interest Group & Working Group**

Relevance: The Open Science Commons IG and WG will coordinate global activity on the development of open science platforms.

11:00 – 12:30 | Undergraduate Centre MI140 (Majakka)

**BoF** ● **Engaging Researchers With Research Data: What Works?**

Relevance: allow the community to continue to exchange best practice and keep each other informed on innovative methods to stimulate researchers engagement with research data.

19:00 – 10:30 | Dipoli, Palaver

# EOSC Related RDA Sessions at P14

25<sup>th</sup> October

BoF ● Visions for Future Research Environments:  
Services, Processes and Policies

11:00 – 12:30 | Undergraduate Centre - U119 (Deloitte)

The World is Changing...

What do we plan to do?

- Use the window of opportunity to shape EOSC, AOSP, ...
- Understand which services we need now – and which we could need in the future (!)
- Collect needs, ideas, visions, ...
- Draft scenarios, lists of tools, services (technical, legal, organizational, ...)
- Provide these as consolidated input to EOSC, AOSP, national and institutional initiatives
- Ensure that future research environments meet our needs

# EOSC topics at the RDA Unconference

**25<sup>th</sup> October, 15:00-18:30**

## What is an Unconference?

- Informal but structured forum designed to facilitate collaboration and knowledge exchange: participants suggest topics, vote and break up into discussion groups to address them

Key topics have come out of your WG discussions?

## What to do?

- Visit the Unconference Desk, suggest new topics and vote on the proposed topics!
- Bring the EOSC topics to the RDA agenda!

*Enjoy the cocktail & the RDA Plenary 14*
